

## H1N1 FLU MIST CLINIC ANNOUNCEMENT

### CLIFFSIDE PARK and EDGEWATER

The Cliffside Park and Edgewater Departments of Health will host limited H1N1 Influenza Clinics on **Saturday, November 21st & Sunday November 22, 2009** for **healthy children ages 2 to 24 years, and for caregivers of children less than 6 months old. Caregivers themselves must be less than 50 years old.**

These clinics will dispense primarily a live attenuated intranasal vaccine **(Flu Mist)**. All persons receiving this type of vaccine must be healthy with no serious, underlying chronic health conditions. We do have a very limited supply of the injectable vaccine for those priority groups that include pregnant women and children over 4 years of age who do not meet the Flu Mist criteria. **The very limited number of nasal spray doses will be made available by pre-registration on a first come first served basis.**

**Pre-registration is required for the Saturday and Sunday clinics. Walk-ins will not be admitted.** A parent or guardian must accompany individuals under the age of 18. At this time, registration is open for the clinics listed below. Please email [llukanik@cliffsideparknj.gov](mailto:llukanik@cliffsideparknj.gov) or call 201-313-2049.

"As soon as future vaccine shipments arrive, we will update the website to announce the opening of registration, for new clinics. The unfortunate unpredictability of vaccine distribution has thus far prevented us from moving forward on plans we've made months ago. But we are looking for that to change, now."

Following are the community-located public health clinics to be held:

- **Saturday November 21, from 10 am – 2 pm at Cliffside Park Early Learning Center** 263 Lafayette Ave. Cliffside Park, NJ 07010
- **Sunday, November 22, from 12 pm - 4 pm at Edgewater Community Center** 1167 River Rd. Edgewater NJ 07020
