

Feedback from Weatherization Assistance Program Clients:

For years my house was drafty and cold in the winter. I am now warm for the first time without having to put the thermostat way up. I cannot believe the difference. I am so thankful and appreciative that there is this program and I could have this work done.

BP, Park Ridge

I'd like to thank everybody for all the help that I received...My house is now warm, comfortable and safe.

ES, Wyckoff

My home is 50% more comfortable, I understand my thermostat and leave certain doors open now and vents and it's perfect!

JD, Dumont

I wanted to thank all of you for a job well done. It was a positive experience for me with great results.

*A satisfied homeowner,
JS, Englewood*

I was extremely happy with the workers that were sent to my house. They did a great job, they were careful, polite, and most of all worked very hard. It felt to me like they were working in their own homes.

CC, Fair Lawn

Weatherization Works!

BCCAP has a proven track
record of weatherizing
homes in Bergen County
for **35 years.**

Weatherization Assistance

The Weatherization Assistance Program is a nationwide effort to assist homeowners & tenants in improving the energy efficiency of their homes.

It is brought to you locally by
Bergen County CAP.

Lower your heating and electric bills, even in this harsh economic climate!

Should I weatherize my home?

If you have trouble keeping your house or apartment warm during the winter months and cool in the summer, feel drafts, or if your energy bills are unusually high, **YES**. You would benefit from the Weatherization Assistance Program.

How does it work?

Once you make the call to Weatherization Assistance, and have qualified for services, we make an appointment to perform an **energy audit** on your residence.

An energy audit is a way to examine your home to see if air is leaking out through improperly sealed windows and doors, or through poorly insulated walls or your attic. Your furnace or boiler, stove & water heater are also checked to see if they are working properly.

We inform you of the results of your energy audit and schedule **repairs**.

What kind of repairs?

Our qualified crews repair and replace faulty windows and doors, install high-efficiency insulation, and, if necessary, repair or even replace boilers, furnaces, or water heaters. They replace air filters in your home to make the air your family breathes safer.

A technician conducts an efficiency analysis.

Weatherization Benefits

- Energy bills can be lowered over 20%.
- Your living space is easier to heat in the winter AND cheaper to cool in the summer.
- Replacement of air filters, etc, makes the air in your home healthier for you to breathe.
- Repairs make your home safer and more comfortable.
- Making your home more energy efficient makes it more eco-friendly.
- It's a great place to start if you're trying to "go green."

**SERVICES ARE
FREE
FOR THOSE
WHO QUALIFY**

Who Is Eligible?

Household income must be at or below 200% of the Federal Poverty Level. For example, in 2011, a family of 4 with income less than \$44,700 qualifies. Veterans who are receiving cash benefits and recipients of TANF (Temporary Assistance to Needy Families) and Food Stamps automatically qualify.
